Published by University of Georgia Cooperative Extension

The Georgia Pest Management Handbook: Home & Garden Edition is updated biennially. When purchasing a product based on a first-year recommendation of the *Handbook*, check the current product label before purchase to be sure it is still labeled for the use for which you are buying it. For pesticide products you have on hand from earlier purchases, you are allowed to use them until they are depleted without penalty under the law. Always follow label instructions before use. Contact the product's manufacturer for the most up-to-date label.

The Georgia Pest Management Handbook—2024–2025 Home & Garden Edition provides current information on selection, application, and safe use of pest control chemicals. This handbook has recommendations for pest control around homes and on pets, for pests of home garden vegetables, fruits and ornamentals, and for pests of public health interest associated with our homes. Cultural, biological, physical, and other types of control are recommended where appropriate.

Additional information on controlling insects, plant diseases, and weeds is available in bulletins and circulars published by UGA Cooperative Extension. Your county agent will provide recommendations upon request. Free publications are also available at extension.uga.edu/publications.

Pesticide recommendations are based on information on the manufacturer labels and on performance data from research and Extension trials at the University of Georgia and sister institutions. Because environmental conditions, the severity of pest pressure, and methods of application vary widely, recommendations do not imply that performance of pesticides will always be acceptable.

This publication is intended to be used only as a guide. Trade and brand names are used only for information. The University of Georgia does not guarantee nor warrant published standards on any product mentioned; nor does the use of a trade or brand name imply approval of any product to the exclusion of others which may also be suitable. Always follow the use instructions and precautions on the pesticide label. For questions, concerns, or improvement suggestions regarding the *Georgia Pest Management Handbook*, please contact your county agent.

PRINTED COPIES ARE AVAILABLE FOR \$20. Visit us online at extension.uga.edu/programs-services/integrated-pest-management/publications/handbooks.html or call (706) 542-5783 for information on how to order. Online orders can be made at ugaextensionstore.com. Delivery by UPS will occur 7–14 business days from when the order is processed. Please provide a physical address for shipping, as UPS does not deliver to P.O. boxes. Sales of books and data are considered final. Materials returned due to damage in shipping will be replaced. To download an electronic version, visit us online at ipm.uga.edu.

CONTENTS

PESTICIDE EMERGENCIES	5	HOME FUNGICIDE GUIDE	73
